NEHA GUPTA

FULL STACK DEVELOPER

ABOUT ME

Hello, I'm Neha Gupta, a passionate full-stack developer with a deep love for creating web applications that not only look great but also function seamlessly. I have a good background in both front-end and back-end development, which allows me to take projects from concept to completion.

When I'm not at my computer, you can find me on Instagram or practicing guitar. I'm excited to connect and collaborate with like-minded individuals in the tech community!

PROJECT

Weather App Development

Project Description:

Developed a weather application that provides real-time weather forecasts and information to users. The app offers a user-friendly interface and various features to enhance the user experience.

Start Page Animation Logo

Project Description:

Developed and designed a captivating animated logo for the start page of enhancing the brand's visual identity and creating a memorable user experience.

Amazon Clone Web Page Project

Project Description:

Designed and developed a functional web application that replicates the core features and user interface of the Amazon e-commerce platform. The project aimed to showcase my web development skills and create a responsive, user-friendly shopping experience.
