ABOUT ME

Hello, I'm Neha Gupta, a passionate full-stack developer with a deep love for creating web applications that not only look great but also function seamlessly. I have a good background in both front-end and back-end development, which allows me to take projects from concept to completion.
When I'm not at my computer, you can find me on Instagram or practicing guitar. I'm excited to connect and collaborate with like-minded individuals in the tech community!

PROJECT

The Souled Store
Project Description:
Developed and designed a responsive clothing e-commerce platform, "The Soul Store," focusing on user-friendly interfaces and seamless shopping experiences. Implemented interactive product displays, category sorting, and secure checkout functionalities using React. Integrated custom CSS for modern, dynamic layouts, ensuring cross-browser compatibility and mobile responsiveness. Enhanced performance with optimized JavaScript for better user interaction.

Apple Music
Project Description:
Developed a feature-rich music streaming platform modeled after Apple Music using React for a smooth user interface. Designed responsive layouts and integrated dynamic audio functionalities with JavaScript for seamless playback. The app includes music search, playlist creation, and media player controls. Styled with CSS for a modern, intuitive design, ensuring a consistent experience across devices.

Start Page Animation Logo
Project Description:
Developed and designed a captivating animated logo for the start page of enhancing the brand's visual identity and creating a memorable user experience.
